

.BRAND_STYLE_GUIDE

Where Long Island's Tech Community Connects

The visual and verbal identity of Long Island Technologists (LIT). One reference for colors, type, components, and voice, so every page, post, deck, and email feels like the same room.

Version 1.0 • October 2026 • Farmingdale, NY

What's inside

01	Brand Essence	Who we are and how we sound
02	Logo	Lockup, clear space, misuse
03	Color	Neon blue, neutrals, tints, contrast
04	Typography	Inter, Geist Mono, the type scale
05	Components	Buttons, cards, labels, lists
06	Layout, Effects and Iconography	Grid, spacing, radius, glow, icons
07	Voice and Copy	Tone, vocabulary, sample lines
08	Token Reference	Copy and paste values for builders and AI skills

01 . BRAND_ESSENCE

Who we are

A collective of curious and passionate technologists bound together by a love for technology and a mission to strengthen the local tech community. Monthly meetups at Flux Coffee in Farmingdale, talks from industry leaders, and real connection.

Brand personality

- **Welcoming.** Seasoned pro or first day in tech, there's a seat for you.
- **Technical, never stuffy.** Code nods like `.what_we_do`, delivered with a smile.
- **Local and proud.** Long Island first, always.
- **Bright and clean.** Light canvas, one electric accent.

The lockup

A heavy **LONG** beside a light **ISLAND**, with a widely tracked **TECHNOLOGISTS** beneath, all set over a soft gray silhouette of Long Island itself. The weight contrast is the signature. Never rebuild it in live type.

Clear space X = cap height of "LONG" on all sides

Header usage: 40px tall (h-10), max 180px wide

FILE	USE IT FOR
images/lit-20logo-204_cropped.png	Primary. 420 × 208, transparent. Header, footer, hero (max 350px), slides, social.
images/lit-20logo-204.png	Square 500 × 500 with padding. Avatars, profile images, favicons.
images/lit-20logo-204.svg	Rough vector draft only. Not production quality; request a true vector before print work.

Do

- Place on light backgrounds: #FAFAFA, #FFFFFF, #F5F5F5.
- Scale proportionally; keep at least 120px wide on screen.
- Let neon blue live around the logo, not inside it.

Don't

- Recolor the wordmark blue or add glow to it.
- Place on dark or busy photos without a light panel.
- Stretch, rotate, outline, or drop the island silhouette.

One neon accent on a light canvas

The palette is deliberately small. Neutrals do the heavy lifting; neon blue signals action, emphasis, and energy. If everything glows, nothing does.

PRIMARY

Neon Blue
HEX #0EA5E9
RGB 14 165 233
--neon-blue

Text Dark

Proportion

Contrast (WCAG 2.1)

#141414 on #FAFAFA	17.6 : 1 AAA
#737373 on #FAFAFA	4.5 : 1 AA
#FFFFFF on #0EA5E9	2.8 : 1 large / UI only
#0EA5E9 on #FAFAFA	2.7 : 1 large / UI only

Neon blue text works for labels, links, and display type at 18pt+ or 14pt bold. For small body copy that must be blue, darken to #0369A1 (5.7 : 1).

Inter speaks. Geist Mono labels.

Inter carries every headline and paragraph. Geist Mono is the technologist's accent: section labels, dates, metadata. Both are free on Google Fonts.

Signature move: in the hero, one phrase per headline breaks onto its own line in neon blue with a soft glow (text-shadow: 0 0 10px rgba(14,165,233,.4)). Use it once per page, max.

Building blocks

Flat surfaces, hairline borders, generous rounding. Interaction is shown with a blue border, a lift, and a little light.

Buttons

Primary: #0EA5E9 fill, white 500 text, 8 x 16px padding, 6px radius. Hover: opacity .7. Outline: transparent, 1px #E0E0E0, hover #EBEBEB. Optional glow: 0 0 20px rgba(14,165,233,.4). Pair one primary with one outline, never two primaries.

Cards

List rows

Callout band

Structure and atmosphere

Layout

Max content width	1280px
Reading width	700px descriptions, 900px lists
Section padding	48px / 32px (3rem 2rem)
Grid gap	32px, cards min 280px
Header	80px fixed, 80% white, 12px blur
Breakpoint	768px, stack to 1 column

Radius

Buttons and badges: md. Icon tiles: lg. Cards and rows: xl.
Round icon wells: 50%.

Signature effects

Blueprint grid

1px lines at 10% neon, 50px cells, 20% opacity, over a 135deg 5% wash. Hero only.

Glow divider

2px line fading from transparent to neon and back, 10px glow. Separates big ideas.

Connects

Neon text glow

0 0 10px at 40%. One highlighted phrase per screen.

Iconography

Feather / Lucide style line icons: 24px grid, 2px stroke, round caps and joins, stroke="currentColor", no fills. Tint them neon blue inside a 10% tile or circle. Sizes: 16px inline, 20px meta, 24px cards, 32px feature wells.

Motion

Everything eases at all 0.3s ease. Cards lift 5px, rows slide 4px, buttons fade to 70%. Calm and quick, never bouncy (the hero scroll cue is the lone exception).

Sound like a neighbor who codes

Warm, inclusive, and energized. We talk to people, not at them. Short sentences, active verbs, and a wink of developer humor.

Community first

"We" and "you," never "the organization." Every message is an invitation.

Local pride

Name the place. Long Island, Farmingdale, Flux Coffee. Roots make it real.

Playfully technical

Snake case labels like `.past_presentations` nod to the craft without gatekeeping.

Say it like this

- Where Long Island's Tech Community Connects
- Want to be a techie too?
- Building Long Island's Tech Scene
- Join Next Meetup
- Educate, stimulate and cultivate with the LIT community.

Not like this

- Leverage synergistic networking paradigms.
- Exclusive event for senior engineers only.
- CLICK HERE NOW!!!
- Walls of jargon with no human in them.

Copy conventions

Name	"Long Island Technologists" on first mention, "LIT" after. Always caps: LIT, never Lit.
Headlines	Title Case, 3 to 7 words, no ending period. Questions are welcome.
Buttons	Verb first, 2 to 4 words: Join Next Meetup, RSVP on Eventbrite, Get In Touch.
Section labels	Dot prefix plus snake case, lowercase: <code>.what_we_do</code> , <code>.sponsor_lit</code> .
Dates and times	"Thursday Evening," "7:00 PM EST." Mono for compact dates.
Contact	LIT@causeofakind.com
Emoji	Not in site UI. Icons do that job.

Tokens for builders and AI skills

Paste this block into any prompt, skill, email template, or stylesheet to stay on brand. Source of truth: `_sass/base/_variables.scss`.

```

Quick checklist

- Light background, dark headlines, gray body.
- Neon blue only where you want the eye to go.
- One glowing highlight phrase per screen.
- Mono, snake case section label above each H2.
- Cards: #F5F5F5, 1px border, 12px radius.
- Line icons, 2px stroke, in 10% blue tiles.
- Logo on light surfaces, never recolored.
- Copy that sounds like an invitation.
